Re: Notice of Oral Ex Parte Presentations  
in IB Docket No. 00-248

Dear Ms. Dortch:

This is to report that on Friday, November 21, 2003, Leslie Taylor, a consultant to counsel to QUALCOMM Incorporated ("QUALCOMM"), had telephone conversations with Tom Tycz, William Howden, and Steven Spaeth of the staff of the International Bureau concerning the written ex parte presentation made by QUALCOMM in this proceeding on November 19, 2003. During these conversations, Ms. Taylor stated that, in the event that the Bureau did not believe that it had sufficient information at this time to adopt QUALCOMM's proposed statistical approach for regulating adjacent channel interference in the Ka-band, the Bureau should consider seeking additional comment on this issue, such as in the form of issuance of a Further Notice of Proposed Rule Making.

I am filing this letter electronically via the Commission's ECFS system.

Sincerely yours,

/s/ Dean R. Brenner
